

## Simplify teacher training for Learning.com

With the Online Training Center, enable teachers to effectively use Learning.com curriculum with streamlined onboarding and ongoing PD courses.

### ONLINE TRAINING CENTER OVERVIEW

The Online Training Center courses cover the fundamentals of the Learning.com platform and curriculum. They're designed as introductory or refresher courses so educators can seamlessly integrate the content into their classroom, even while teaching at a distance.

The Online Training Center features short, asynchronous lessons that your teachers can complete at their own pace, alongside supplemental materials to extend their knowledge.

## Here's How Your Team Benefits from the Online Training Center

### Streamline the Onboarding Process

Ensure that all members of your team get properly onboarded with training resources they can revisit as needed.

### Train Your Team Asynchronously

Enhance how you train your educators with tips and tricks as well as quick video tutorials tailored to every member's role and teaching style.

### Get Teachers Classroom Ready

Ensure all teachers – whether they have used Learning.com before or not – know how to set up and manage their Learning.com account and integrate it into their instruction to best meet students' needs.

### Offer PD & Continuing Education Units

Award your team members with a downloadable Certificate of Completion that can be submitted for PD/Continuing Education units.

#### FREQUENTLY ASKED QUESTIONS

##### How do I access the Online Training Center?

**Coordinators:** You can set up training for your school or district through your Learning.com contact.

**Educators:** Sign in to the Online Training Center using the same login credentials you use to access your Learning.com account! If you're not sure whether you have an account, reach out to your district coordinator.

##### Who are these courses for?

These training courses are geared towards any educator who will use Learning.com curriculum with students. This includes classroom teachers, tech teachers, paraprofessionals, and library media specialists.

##### Is reporting available?

Reporting is available to anyone who has a District Coordinator role in Learning.com. Once a course has been made available to a school district, District Coordinators can keep an eye on trainee progress from within the Online Training Center and download Certificates of Completion for anyone who has finished training.
